

PAD Employee Training Checklist

EXTERIOR

[] Wheels & Tires First

- If Engine Bay Cleaning add-on is included, perform engine bay cleaning first
- Use Dirt Buster or Muscle Magic at appropriate dilution on engine bay, cover electronics
- Chemical: Dark Fury 4:1 or 7:1 (Alternative: Meguiar's APC 4:1)
- Agitate with brush, no dwell time needed

[] Pre-Rinse whole vehicle

- Skip if clean maintenance detail
- Rinse top to bottom always
- Open doors slightly to flow water through jambs without flooding

[] Pre-Treat bugs / heavy grime

- Road Warrior 4:1 for bugs (front grill, hood, bumper)
- Muscle Magic or Dirt Buster for heavy grime
- Apply to dry surface before rinse/foam
- Pay extra attention to lower front panels and grille openings

[] Foam Bath

- Apply thick even layer top to bottom
- Dwell Time: 3-5 minutes
- Do not let foam dry on paint - mist with water if necessary

[] Hand Wash (Top to Bottom)

- Use multiple clean microfiber towels or wash mitts
- One side of towel at a time, flip to clean side before next panel
- Work top to bottom - roof first, rocker panels/bumpers last
- Driver's side front to back, passenger side back to front
- Never use towel/mitt that touched wheels/lower panels on upper paint

[] Final Rinse

- Rinse top to bottom
- If Clay Bar Decon add-on included, proceed directly while wet
- Use APC as lubricant for clay, fold frequently, work until glass smooth

[] Drying

- Open all door jambs, trunk, and hood during drying to prevent drips
- Dry jambs as part of this step
- Formula 4 at 20:1 acts as drying aid and adds light protection

[] Paint Protection

- Formula 4 is already applied during drying step
- This step confirms protection has been applied
- No additional product needed unless a separate wax/sealant add-on is included

INTERIOR

[] Remove Personal Items & Trash

- Remove all personal items, trash, and loose belongings
- Set aside safely for the customer before starting interior work

[] Thorough Vacuum (Top to Bottom)

- Blow out interior with compressed air first (vents, tracks, under seats)
- Use crevice tool for seat tracks and tight areas
- Work rear to front within each section
- Vacuum all carpets, seats, and crevices

[] Clean Floor Mats & Area Rugs

- Use drill brush set - select based on mat type/dirtiness
- Primary chemicals: Carpet Bomber + Terminator duo
- For organic stains: SP Does It All Enzyme Cleaner (apply, dwell, agitate, wipe)
- Rubber mats: rinse thoroughly. Carpet mats: blot dry, set aside

[] Clean Dashboard, Steering Wheel & Console

- Does It All Enzyme Cleaner or Pink Perfection 10:1 for general wipe
- Detail brush for vent slats, button gaps, seam areas
- Steering wheel gets extra attention
- Work driver's side front to back, passenger side back to front

[] Clean All Interior Plastics / Vinyl / Trim

- Does It All Enzyme Cleaner for organic stains on vinyl and trim
- Green All at appropriate dilution for general plastics
- Avoid over-application of dressing near driver's line of sight (glare)

[] Clean Fabric / Carpet / Seats

- Agitate with stiff carpet or drill brush in straight strokes
- Blot with clean microfiber to pull out loosened soil
- For organic stains: SP Does It All Enzyme Cleaner
- Pet hair removal tools before chemical if pet hair is present

[] Interior Protectant / Plastics Finisher

- Apply P&S Xpress 3:1 or SP Cover All 4:1 to all plastics/vinyl/trim
- Use clean microfiber applicator
- Work driver's side front to back, passenger side back to front
- Complete before windows to catch overspray (or carefully as last step)

[] Windows & Glass (streak-free)

- Use Invisible Glass - spray on dedicated glass towel only
- Two-pass method: first pass removes film, second pass clears streaks
- Interior windshield is most difficult (film from off-gassing/HVAC)
- Check from multiple angles in light to confirm no haze

[] Clean Door Jambs & Trunk Jambs

- Use Dirt Buster or APC at appropriate dilution
- Detail brush for hinge areas and tight corners
- Wipe dry thoroughly. Include hood and trunk jambs
- Avoid saturating weather stripping - clean and wipe immediately

[] Final Interior Inspection

- Sit in driver's seat and check windshield for haze from multiple angles
- Open each door and confirm jambs are clean and dry
- Confirm floor mats reinstalled correctly
- Interior should smell clean - not chemical
